Schedule #2—Required Attachments and Provi	sions and Assurances
County-district number or vendor ID: 227901	Amendment # (for amendments only):
Part 3: Program-Specific Provisions and Assurances	The second secon

\boxtimes	I certify my acceptance	of and compliance w	vith all program-specific pr	provisions and assurances listed below
-------------	-------------------------	---------------------	------------------------------	--

	I certify my acceptance of and compliance with all program-specific provisions and assurances listed below.
#	Provision/Assurance
1.	The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates, State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this grant will be supplementary to existing services and activities and will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
2.	The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights and Privacy Act (FERPA) from general release to the public.
3.	The applicant provides assurance that, if it receives these program funds to serve one or more campuses, it will ensure each campus receives all of the state and local funds it would have received in the absence of these program funds. As a result, an LEA must provide the TTIPS grantee campus all of the non-Federal funds the campus would have received were it not a TTIPS grantee campus, and these program funds must supplement the amount of those non-Federal funds. Note, however, that the campus does not need to demonstrate that these program funds are used only for activities that supplement those activities the campus would otherwise provide with non-Federal funds.
4.	The applicant provides assurance that the education program described below is unique to the applicant. An applicant that plagiarizes or copies any other application does not meet this standard and will be disqualified.
5.	 LEA provides assurance that it will meet the following federal requirements: Use its TTIPS Grant to fully and effectively implement an intervention package in each school that the LEA commits to serve, consistent with the final requirements. Establish annual goals for student achievement on the State's assessments in both reading/language arts and mathematics, measure progress on the leading indicators in section III of the final requirements and establish goals to hold schools receiving school improvement funds accountable. If it implements a restart model in a school, hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements, and it include these terms in its contract or provisions Monitor and evaluate the actions a school has taken, as outlined in the approved TTIPS application, to recruit, select and provide oversight to external providers to ensure their quality. Monitor and evaluate the actions schools have taken, as outlined in the approved TTIPS application, to sustain the reforms after the funding period ends and that it will provide technical assistance to schools to sustain progress in the absence of TTIPS funding. Report school-level data to the SEA required under section III of the final requirements, and included in the Program Guidelines of this RFA.
6.	The LEA provides assurance that it will participate in any evaluation of the grant conducted by the U.S. Department of Education, including its contractors, or the Texas Education Agency, including its contractors.
7.	The LEA/campus provides assurance that if it selects to implement the transformation model , the campus will meet all of the following federal requirements: 1. Develop and increase teacher and school leader effectiveness. (A) Replace the principal who led the school prior to commencement of the transformation model; (B) Use rigorous, transparent, and equitable evaluation systems for teachers and principals that- i. Take into account data on *student growth* as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and ii. Uses the definition of *student growth* as: the change in achievement for an individual student between two or more points in time. For grades in which the State administers summative assessments in reading/ language arts and mathematics, student growth data must be based on a student's score on the State's assessment under section 1111(b)(3) of the ESEA. A State may also include other measures that are rigorous and comparable

8.

across classrooms.

- iii. Are designed and developed with teacher and principal involvement;
- (C) Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and high school graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so;
- (D) Provide staff ongoing, high-quality, job-embedded professional development (e.g., regarding subject-specific pedagogy, instruction that reflects a deeper understanding of the community served by the school, or differentiated instruction) that is aligned with the school's comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and
- (E) Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a transformation school.
- 2. Deliver comprehensive instructional reform strategies.
 - (A) Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards; and
 - (B) Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students.
- Increase learning time and creating community-oriented schools.
 - (A) Establish schedules and strategies that provide increased learning time; using a longer day, week or year; and by addressing each of the following areas:
 - i. Additional time for instruction in core academic subjects including English, reading or language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography.
 - ii. Additional time for instruction in other subjects and enrichment activities that contribute to a well-rounded education, including, for example, physical education, service learning, and experiential and work based learning opportunities that are provided by partnering, as appropriate, with other organizations.
 - iii. Additional time for teachers to collaborate, plan, and engage in professional development within and across grades and content areas.
 - (B) Provide ongoing mechanisms for family and community engagement.
- 4. Providing operational flexibility and sustained support.
 - (A) Give the school sufficient operational flexibility (such as staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; and
 - (B) Ensure that the school receives ongoing, intensive technical assistance and related support from the LEA, the SEA, or a designated external lead partner organization (such as a school turnaround organization or an EMO).

The LEA/campus provides assurance that if it selects to implement the <u>Texas state-design model</u>, the campus will deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS). In doing so, the LEA/campus will implement the following:

- Pursue designation as a Texas Early College High School, with a target of earning TEA ECHS designation and full-operation as an ECHS, no later than the start of the second year of the TTIPS grant implementation period; Fall 2017.
- Create an innovative high school that enables students to graduate with a high school diploma and an associate degree; or high school diploma and 60 college credit hours toward a baccalaureate degree.
- 3. Provide college credit earned through the high school years for all students at no cost; including tuition, fees and textbook costs.

Fo	r TEA Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

- 4. Develop and increase teacher and school leader effectiveness through use of the Texas Teacher Evaluation and Support System and Texas Principal Evaluation and Support System.
- 5. While implementing for all students, the program specifically identifies students for more intensive supports. These students include those at-risk for dropping out of school, as defined in Texas statedefined criteria in TEC §29.081; and students historically underrepresented in college courses. In developing and providing the more intensive supports, , the LEA/campus will have:
 - (A) Data to identify the population at risk of dropping out of school;
 - (B) Quantitative and qualitative data to identify students least likely to attend college/those historically underrepresented in college courses;
 - (C) Early College brochures in all languages relevant to the school community;
 - (D) Written communication plan for relevant target audiences: parents, community members, school board.

Adapted from Texas Early College High School Blueprint, Benchmark 1.

- 6. By the start of TTIPS full-implementation (Fall 2016), the LEA/campus will have key partnerships in place that will enable success as an Early College High School. These partnerships are marked by signed Memoranda of Understanding with current signature each year of implementation. Key partnerships include:
 - (A) Partnership between the school district and an institute of higher education (IHE) that:
 - Defines the partnership between the LEA/campus and the IHE and addresses topics including, but not limited to: the ECHS location, the allocation of costs for tuition, fees, textbooks, and student transportation;
 - ii. Defines an active partnership between the school district(s) and the IHE(s), which shall include joint decision-making procedures that allow for the planning and implementation of a coherent program across institutions; and
 - iii. Includes provisions and processes for collecting, sharing, and reviewing program and student data to assess the progress of the ECHS.
 - (B) Contract/partner with the Texas Early College High School Technical Assistance provider for access to training, coaching, and technical assistance through to earning designation. Once designated, will continue work with the technical assistance provider as is required as a condition of TEA designation.
 - (C) Contract/partner with a Texas Early College High School demonstration site. Demonstration sites are identified by TEA each year from 2015-2016 forward. Terms of the contract/partnership shall be designed for demonstration site/ model program for the TTIPS LEA/campus by TEA in early 2015-2016

Adapted from Texas Early College High School Blueprint, Benchmark 2.

- 7. By the start of TTIPS planning/pre-implementation year (January 1, 2016), the LEA and key partners must have developed and be maintaining a leadership team focused on P-16 Leadership Initiatives that meets regularly to address issues of the ECHS design and sustainability. At minimum, the membership shall include the campus principal and individuals with decision-making authority from both the LEA and IHE. Adapted from Texas Early College High School Blueprint, Benchmark 3.
- 8. Provide a curriculum that offers a rigorous and accelerated course of study, in both college-credit bearing courses and preparatory/college readiness courses. Additionally, the program must provide students with the academic, emotional and social supports necessary to be successful in the rigorous course of study. The curriculum and supports must meet the following:
 - (A) Beginning in TTIPS first year of full-implementation (Fall 2016), have curriculum in place that allows all students to graduate high school with at least six semester credit hours toward a baccalaureate

Fo.	r TEA Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

degree

- (B) By TTIPS second year of full-implementation (Fall 2017), have curriculum in place that enables students to receive a high school diploma and complete the Texas Higher Education Coordinating Board's (THECB) core curriculum (as defined by TAC §4.28); or an associate's degree; or at least 60 credits toward a baccalaureate degree during grades 9-12.
- (C) Possess a written course of study plan showing how students will progress as an ECHS graduate. The plan must provide pathway to a baccalaureate degree and follow the courses and fields of study listed in the THECB Lower Division Academic Course Guide Manual.
- (D) Beginning in the TTIPS first year of full-implementation, the campus will provide academic supports to the students in the form of: extended learning time sessions for tutoring, advisory and/or college readiness support time built into the program of study, and a college-readiness mentorship program.
- (E) Beginning in the TTIPS planning/pre-implementation year, the campus will provide social and emotional supports to the students, including: connections to social services, parent outreach and involvement opportunities.
- (F) Beginning in the TTIPS first year of full-implementation, the campus will provide college awareness and access services to students and families, including: college application assistance, financial aid counseling, college and career counseling.

Adapted from Texas Early College High School Blueprint, Benchmark 4.

By the TTIPS first year of full-implementation, the campus shall provide for the administration of the Texas Success Initiative (TSI) college placement exam to students in order to assess college readiness, design individual instruction plans, and enable students to begin college courses based on their performance. Fees associated with assessment administrations must be waived/covered for all students. Adapted from Texas Early College High School Blueprint, Benchmark 5.

- 9. By the start of the TTIPS second year of full-implementation (Fall 2017), the campus will provide a full-day program at an autonomous high school; operating with:
 - (A) An IHE liaison with decision-making authority who interacts directly and frequently with the campus staff and administrators;
 - (B) A highly qualified teaching staff possessing appropriate level of certification, training and ongoing supports to teach college-bearing courses to high school students.
 - (C) Clear opportunities for students to have regular use (at least six times per school year) of college academic facilities, regardless of early college school site.
 - (D) Opportunities for high school faculty and staff to receive regular training and support; in collaboration with the IHE faculty and staff.

Adapted from Texas Early College High School Blueprint, Benchmark 6.

The Texas concept for an Early College High School is fully described in the following resources:

- Texas Education Agency, Early College High School program
- Texas Education Code §29.908
- Texas Administrative Code §4.161
- 19 Texas Administrative Code Chapter 102 Educational Programs Subchapter GG: <u>Commissioner's Rules</u> <u>Concerning Early College Education Program</u>

The applicant provides assurances that the LEA/campus administering the state-design model will submit an Early College High School Readiness Assessment as a supplement to the TTIPS required Implementation Readiness Portfolio. Assessment forms will be provided by the TEA TTIPS program office.

The applicant provides assurances that the LEA/campus administering the state-design model will apply for Texas Early College High School designation, no later than applications are available for schools that wish to be designated for the 2017-2018 school year.

9. The LEA/campus provides assurance that if it selects to implement the Early Learning Intervention Model in an

For TEA Use Only		
Changes on this page have been confirmed with:	On this date:	
Via telephone/fax/email (circle as appropriate)	By TEA staff person:	

elementary school, the campus will implement in accordance with the following federal requirements:

- Offer full-day kindergarten.
- 2. Establish or expand a high-quality preschool program.

A high-quality program includes structural elements that are evidence-based and nationally recognized as important for ensuring quality. Implementation under this grant program must meet the requirements of a high-quality preschool program, as defined in the U.S. Department of Education's Preschool Development Grants program. Under this definition, program must have:

- (A) High staff qualifications, including a teacher with a bachelor's degree in early childhood education or a bachelor's degree in any field with a state-approved alternative pathway.
- (B) High-quality professional development for all staff:
- (C) A child-to-instructional staff ratio of no more than 10 to 1;
- (D) A class size of no more than 20 with, at a minimum, one teacher with high staff qualifications;
- (E) A full-day program;
- (F) Inclusion of children with disabilities to ensure access to and full participation in all opportunities;
- (G) Developmentally appropriate, culturally and linguistically responsive curricula, and learning environments that are aligned with the state early learning and development standards for at least the year prior to kindergarten entry;
- (H) Individualized accommodations and supports so that all children can access and participate fully in learning activities;
- (I) Instructional staff salaries that are comparable to the salaries of local K-12 instructional staff;
- (J) Program evaluation to ensure continuous improvement;
- (K) On-site or accessible comprehensive services for children and community partnerships that promote families' access to services that support their children's learning and development;
- (L) Evidence-based health and safety standards.
- 3. The LEA has assessed the benefits of contracting with a community-based provider to provide the high-quality preschool programs for students enrolled in an elementary school implementing the model, either at the TTIPS campus or through an existing high-quality child care or Head Start program within the LEA or nearby community. The LEA is aware that the preschool is not required to be physically located in the eligible elementary school. However, students must be enrolled in the grantee school that is implementing the early learning model to receive preschool services funded through the grant program.
- 4. Provide educators, including preschool teachers, time for joint planning across grade levels.
- 5. Replace the principal who led the school prior to the commencement of the early learning model.
- 6. Use rigorous, transparent, and equitable evaluation systems for teachers and principals that-
 - (A) Take into account data on student growth as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and
 - (B) Are designed and developed with teacher and principal involvement;
- 7. Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and high school graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so.
- 8. Implement strategies such as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain high quality

·	

educators.

- 9. Use data to identify and implement an instructional program that is:
 - (A) Research-based;
 - (B) Developmentally appropriate;
 - (C) Vertically aligned from one grade to the next as well as aligned with State academic standards;
 - (D) Promotes academic content across a range of development: math and science, literacy and language, socio-emotional skills, self-regulation, and executive functions.
- Promote the continuous use of student data (such as from formative, interim, and summative
 assessments) to inform and differentiate instruction in order to meet the academic needs of individual
 students.
- 11. Provide staff with ongoing, high-quality, job-embedded professional development such as coaching and mentoring that is:
 - (A) Aligned with the school's comprehensive instructional program
 - (B) Designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to implement school reform strategies.
- 12. Operate in compliance with all regulations in the Texas Pre-Kindergarten Guidelines (PKG).
- 13. Utilize Texas State Board of Education approved pre-kindergarten instructional materials.
- 14. Enroll in the Children's Learning Institute (CLI), <u>CLI Engage</u> platform, and utilize the <u>Texas School Ready!</u> child progress monitoring assessments with pre-kindergarten students.

If selecting the Early Learning Intervention model and receiving these grant funds to support the implementation, the full-day kindergarten and full-day pre-kindergarten programs must be offered free of charge to all enrolled students.

The LEA/campus provides assurance that if it selects to implement the <u>turnaround model</u>, the campus will meet all of the following federal requirements:

- 1. Replace the principal and grant the new principal sufficient operational flexibility (including in staffing, calendars/time, and budgeting) to fully implement a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates;
- 2. Use locally adopted competencies to measure the effectiveness of staff who can work within the turnaround environment to meet the needs of students:
 - (A) Screen all existing staff and rehire no more than 50 percent; and
 - (B) Select new staff

10.

- Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school;
- Provide staff ongoing, high-quality, job-embedded professional development that is aligned with the school's comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies;
- Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new turnaround office in the LEA or SEA, hire a turnaround leader who reports directly to the Superintendent or Chief Academic Officer, or enter into a multi-year contract with the LEA or SEA to obtain added flexibility in exchange for greater accountability;

For TEA	Use Only
Changes on this page have been confirmed with:	On this date:

11.

12.

- 6. Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next, as well as aligned with State academic standards;
- 7. Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;
- 8. Establish schedules and strategies that provide increased learning time; using a longer day, week or year; and by addressing each of the following areas:
 - (A) Additional time for instruction in core academic subjects including English, reading or language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography.
 - (B) Additional time for instruction in other subjects and enrichment activities that contribute to a well-rounded education, including, for example, physical education, service learning, and experiential and work based learning opportunities that are provided by partnering, as appropriate, with other organizations.
 - (C) Additional time for teachers to collaborate, plan, and engage in professional development within and across grades and content areas.
- 9. Provide appropriate social-emotional and community-oriented services and supports for students.

If selecting the turnaround model, the applicant agrees to the participation of the campus principal or principal candidates in a formative assessment of their turnaround leadership capacity.

The LEA/campus provides assurance that if it selects to implement the **Whole-School Reform model**, the campus will meet all of the following federal requirements:

- 1. Implement an evidence-based whole-school reform in partnership with a model developer.
 - (A) The model developer is an entity or individual that either has proprietary rights to the model or an entity or individual that has a demonstrated record of success in implementing wholeschool reform models in one or more low-achieving school.
- 2. The whole-school reform model selected must be supported by at least one study that demonstrates its efficacy. The federal SIG office has approved specific whole-school reform models that meet this evidence standard; published here: http://www2.ed.gov/programs/sif/sigevidencebased/index.html These approved models are supported by:
 - (A) A study of efficacy that meets What Works Clearinghouse evidence standards.
 - (B) A study that shows statistically significant favorable impact on a student academic achievement or attainment outcome.
 - (C) A study which used a large sample and multi-site sampling.
- 3. Evidence supporting the efficacy of the whole-school model selected is based on an implementation with a sample population or setting similar to the population or setting of the school being served. The whole-school model must be designed to improve academic achievement or attainment.
- 4. The whole-school model must implement the model for all students in the school.
- 5. The whole-school model must address at a minimum and in a comprehensive and in a coordinated manner:
 - (A) School leadership
 - (B) Teaching and learning in at least one full academic content area
 - (C) Non-academic supports for students
 - (D) Family and community engagement

The LEA/campus provides assurance that if it selects to implement the <u>restart model</u>, the campus will meet all of the following federal requirements:

Schedule #4—Request for Amendment

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Part 1: Submitting an Amendment

This schedule is used to amend a grant application that has been approved by TEA and issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment.

An amendment may be submitted by mail **or** by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Division of Grants Administration, Texas Education Agency, 1701 N. Congress Ave., Austin, TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-7915.

The last day to submit an amendment to TEA is listed on the <u>TEA Grant Opportunities</u> page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review and approval by TEA.

Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend" guidance posted in the Amendment Submission Guidance section of the Division of Grants Administration Administering a Grant page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 and Part 4 of this schedule.

Schedule #5—Program Executive Summary

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver.

Please focus the response on the qualities that enable this specific campus and district team to achieve foundational pursuits of a school improvement undertaking: accelerated achievement, system transformation, and sustained reform

Summarize the district commitments to achieve foundational elements through the district's:

- Vision and focus for school reform
- Sense of urgent need for change
- High expectations for results
- Operational flexibilities that will be afforded the campus in a reform effort

Summarize the district and campus capacity and ability to benefit from this grant in terms of:

- Organizational structures
- Existing capacity and resources
- Communication structures

Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

AISD's Eastside Memorial High School is a Title I campus identified as "Improvement Require" on the Texas Academic Performance Report (TAPR). To address ongoing academic challenges at Eastside, AISD plans to implement the TEA-designed ECHS program. This model addresses all TEA program requirements and aligns with AISD's *vision* to reinvent the urban school experience. AISD believes all students will graduate college, career, and life ready. The District and our leadership are committed to achieving excellence by delivering a high quality education to every student through the transformative use of technology, ensuring all students perform at or above grade level, preparing students to graduate on time or in a timely fashion and developing civically engaged students. AISD will create vibrant relationships critical for successful students and schools through authentically engaging students, parents and guardians, teachers, and the community. AISD will build ownership within AISD among internal and external stakeholders and develop and maintain partnerships to support students. AISD values the whole child and every child, adopting the *Whole Child, Every Child focus for school reform*, advancing academic achievement, as well as physical, social and emotional health and safety, equity, diversity, and inclusion of all students. AISD has *high expectations* for all students, employee, parents and guardians and community members. AISD's *vision* and *focus* facilitates creativity, collaboration and innovation for community schools.

AISD has two successful Early College High Schools at this time and the District has the framework developed that will allow for the *operational flexibility* the EMHS campus will need in the implementation of this initiative. AISD's current investments in ECHS represent correct *resources and capacity* EMHS will leverage to successfully implement the TEA-designed ECHS. Support structures are in place to assist the campus with making changes to the physical, fiscal, and educational needs of the campus. The Chief Officer of Teaching Learning's Office, which provides leadership, direction, and supervision for the operational and academic management of schools, and educational support services works with program staff to design and carry out program evaluations; and responds to district information needs.

Selecting the TEA-designed Early College High School Model was the outcome of campus planning at Eastside High. The campus will be modeled after the District's current ECHSs (Reagan ECHS & LBJ ECHS), signature programs within AISD, and services based on the Comprehensive Needs Assessment (CNA) and planning process conducted by a broad range of stakeholders (AISD administrators, Eastside Principal and staff, parents, community members and partner organizations serving EMHS). Stakeholders support a team of professionals at Eastside lead by the Principal (*organization* & *communication structures*). The Principal will have additional *operational flexibilities* facilitating school turnaround. The team analyzes a range of data sets in data-driven decision making: school, student, and family demographics; disaggregated student performance (reading, math, writing science); attendance; discipline; promotion, retention, and dropout rates; teacher and administrator performance; family engagement measures; community partnerships and partner-provided services. This group analyzed a wide range of school, student, and family data, including demographic data; disaggregated STAAR data (student performance on reading, math, writing

Schedule #5—Program Executive Summary (cont.)

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

and science);disaggregated data on student attendance, discipline reports, and student promotion, retention, and dropout, rates; data about teachers and administrators; information about curriculum and instruction, intervention, and other programs and services provided on campus; disaggregated data on participation in afterschool programs and need for additional programming; disaggregated data on family engagement measures and information about community partnerships and partner-provided services. From this analysis the group identified the following needs and gaps at Eastside: low performance for all students in reading/ELA, math, science, and social studies; poor identification of & inadequate interventions for struggling students; less than ideal school climate; overreliance on alternative educational placements for males of color; low daily attendance rates and incidents of chronic absenteeism; insufficient data analysis and intervention resources; gaps community and parent engagement programs; gaps in *sense of urgency* with regard to monitoring instruction and Response to Intervention.

During the pre-implementation process of the grant, January through July 2016, the campus will address the identified needs and gaps, and articulate a set of goals for Eastside Memorial High School, including: improved and continuous professional development for teachers, training in implementing the new Professional Pathways for Teachers (PPfT) Appraisal system for the 16-17 school year to meet TEA designed teacher appraisal system; Increasing the use of quality data to drive instruction; increasing leadership effectiveness; increasing parent/community involvement; improving school climate; and increasing teacher quality.

The planning process will allow the development of strategies which give the school sufficient *operational flexibility* (such as staffing, calendars/time, extended day and year, and budgeting) to implement fully a comprehensive approach to not only substantially improve student achievement outcomes and increase high school graduation rates but creating a model that allows students to earn college credit; and ensure that the school receives ongoing, intensive technical assistance and related support from the District Support Team.

The Project Director for the Texas Priority Schools, Dr. Mary Thomas, serves as the District Coordinator of School Improvement and will work closely with the campus and the district team to ensure the implementation of the initiative and the fluid communication and changes that may be needed.

All resources acquired with TEA funding are subject to AISD's written policies and procedures that are compliant with the new Uniform Guidance and Department of Education's EDGAR, as outlined in the subsection entitled "Resource Management." AISD's internal grant management office monitors all grant expenditures. All district budgets/grant budgets, including the TTIPS grant budgets, are supervised by a Grant Compliance Officer in the Office of State and Federal Accountability who has the final responsibility for funds and ensures that the grant is managed according to grant guidelines.

During the planning/pre-implementation year (January 1, 2016 – July), AISD and key partners will develop and maintain a leadership team focused on P-16 Leadership Initiatives that meets regularly to address issues of the ECHS design and sustainability. At minimum, the membership shall include the campus principal and individuals with decision-making authority from both the district and IHE.

Schedule #12—Demographics and Participants to Be Served with Grant Funds (cont.)

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Part 2: Student Demographics- Comments

Please use this section to add a description of any data about students that was not specifically requested, but is important to understanding the population to be served by this grant program.

Additionally, use this space to describe trends in data, related to students seen over time in areas that are important to understanding your program plan. Applicants must include supporting evidence to explain trends. For example, projected enrollment growth would need to be supported with a report of percent gains in enrollment over the past several years. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

EMHS has been designated as a campus "Improvement Required" for the past two years. The campus and its sub populations struggle to meet the state standards. The percentage of AISD students graduating college ready in English/Language Arts is at 68%, while the campus (19%), and students within the seven federally identified student subgroups are far below the district standards (Afr A-31%; Hispanic 16%; Eco Dis students-18%). The dropout rate for the Class of 2013 was 5.3% with significant differences appearing in disaggregated data (African Americans, 9.2% for Hispanics; 4.2% for special education students; 7% for Economically Disadvantaged students; and 16% for ELL students). The table below provides additional information regarding student academic outcomes at Eastside:

TAPR		State	District	Campus	Afr A	Hispanic	Whte	Sped	Eco D	ELL
End of Course		***************************************			elitridanilasinalasinalasinaren orașa a ase		<u> </u>			
English 1/Reading 1	2014	67%	68%	50%	41%	53%	78%	27%	50%	36%
English II/Reading II	2014	69%	72%	45%	56%	43%		39%	43%	20%
Algebra I	2014	80%	82%	72%	76%	70%	75%	65%	72%	58%
	2013	78%	80%	69%	57%	71%		43%	69%	62%
Biology	2014	89%	91%	79%	86%	78%		89%	80%	60%
	2013	84%	93%	61%	83%	56%		30%	62%	38%
U.S. History	2014	92%	93%	71%	81%	69%	***************************************	80%	70%	40%

The Mobility Rate for students attending EMHS has marginally improved over the past three years but is still significantly below the district's rate.

Mobility		
Rate	District	Campus
2011-2012	21.7%	36.8%
2012-2013	20.7%	31.2%
2013-2014	19.2%	29.9%

In the Eastside HS Class of 2014 High School Exit Survey, 13.3% indicated they could not afford to attend school, or need income from working, thus would not pursue postsecondary credentials; 26.7% had personal obligations (child care or family responsibilities); 13.3% felt they were not academically prepared for college; 13.3% indicated they did not like school or had career goals that did not require college; and 26.7% wanted to take time off from school, but planned to enroll later.

Schedule #12—Demographics and Participants to Be Served with Grant Funds (cont.)

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Part 4: Staff Demographics- Comments

Please use this section to add a description of any data about campus staff that was not specifically requested, but is important to understanding the population to be served by this grant program. Additionally, use this space to describe trends in data related to campus staff seen over time in areas that are important to understanding your program plan. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Even though 38.1% of the staff at EMHS has a Master's Degree, few have the degree/content specific that would allow them to teach in a two year or four year college. In order to create a sustainable ECHS at the campus, there is a need to increase the ability of current staff to teach dual credit courses and to ensure that in coming teachers have the educational levels or the desire to seek an educational level that would allow them to teach the articulated courses.

The data from the AISD Teacher Attrition from 2013-2014 to 2014-2015 shows that 20% of the teachers at Eastside Memorial HS either retired or transfers at the campus during this time frame. Preliminary data is reflecting the same rate of attrition for the coming year. This movement of teachers each year limits Eastside Memorial HS in its ability to retain trained and highly qualified staff. This attribute alone, placing Eastside Memorial HS in a constant stage of training and recruiting teachers to work consistently with the students and the current HS program.

Schedule #13—Needs Assessment

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Continuous improvement is a systematic approach in school reform, including processes for data analysis, problem identification, root cause analysis, goal setting, intervention design, implementation, monitoring, and evidenced-based progress reporting.

Part 1: Process Description. Describe the process and activities in which you engaged to conduct a data analysis and needs assessment; and select the model, goals, and interventions to be implemented under this grant. In the description, include the team members involved in the planning process, frequency and timeline of planning meetings, and key activities/strategies used to facilitate decision making.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

AISD and Eastside leveraged the processes and activities in the campus's current data analysis and planning process to select the TEA Early College High Model, goals, and interventions proposed in this application. Every school year, the Principal with the assistance of the Campus Advisory Committee (CAC) must develop, review, and revise the Campus Improvement Plan (CIP). The Purpose of this *Plan* is to improve student performance of the state's student achievement indicators for all student populations, as well as improve performance on any other performance measures for special needs populations. The CIP supports the objectives of the AISD *Strategic Plan*. The CIP assesses the academic achievement of all students; sets the campus performance objectives; identifies the activities and strategies that will be employed to meet goals; sets timelines for reaching student achievement and other campus goals; establishes a plan for measuring progress toward accomplishing goals; provides for a program to encourage parental involvement; and includes goals and methods for violence prevention and intervention on campus.

During the development of the CIP, monthly meetings of campus administration and the Campus Advisory Committee (CAC) are convened. CACs are committees of parents, students, when appropriate, business, and community representatives, teachers, principals, and other campus staff. Membership of CACs is determined at the campus level. Detailed information on CAC membership is included in the CAC bylaws, publically available on the AISD web page. The formation of CACs is required by state law (Texas Education Code §11.251. Specific functions of CACs include providing review and comment on campus education programs, campus performance, campus improvement planning, the campus staff development plan, budgeting, and any campus-level waiver requests to the Texas Education Agency or other State of Texas entity. The mission of CACs is to promote excellence in education for all students through broad-based representation. CACs provide valuable input to principals, who ultimately have decision-making responsibility for their campuses. AISD's Campus & District Accountability publishes an annual schedule for CIPs. available at: http://www.austinisd.org/cda/campus-improvement-plans/resources. Campus & District Accountability identifies required teams of AISD staff that must review CIPs for programmatic and fiscal compliance. For example, for the 2015-2016 CIP process, administrators and CACs review student data between September 1st and July 29th. meeting monthly to review different data sets, analyze data, and assess the needs of the school. Principals and other campus academic leadership attend workshops and trainings in July and August. Campus administrators, District staff, and the CAC review and integrate applicable State accountability ratings into the CIPs in late September and October. The Principal submits the first draft of the CIP electronically to district-level review teams at the end of October. The revision process for CIPs continues throughout November, which includes ongoing communication and an iterative revision process for AISD and campus-level staff. CIPs are finalized and uploaded to the AISD web site before Winter Break.

Campus administrators and the Eastside CAC were tasked with reviewing the data gathered for the continuous improvement of the campus as a whole and making recommendations as to the needs of the campus for the coming year. Data reviewed for the needs assessment: performance on state assessments; attendance; TELPAS results; discipline; Primary Reading Assessment results; parent/teacher Surveys; accountability ratings (including safeguards missed); Teaching, Empowering, Leading and Learning (TELL) results; review of TAPR data; student climate survey; Special Education indicator reports (C-IEP); STAAR Data; staff/faculty/parent/student survey results; SAT/ACT Exam Participation and Performance; Advanced Placement/International Baccalaureate Exam; Advanced Course/Dual Enrollment/ College Read Graduates ELA and Math. The Associate Superintendent for High School and District staff (State & Federal Accountability, Campus & District Accountability, etc.) were also available during monthly vertical team planning meetings for Eastside. During the Planning Process in the Spring of 2016, 14-15 data and data gathered during the summer and fall 2015 activities and beginning of school assessments will be reviewed by the stakeholders (CAC/District Staff/Key stakeholders, etc.) to make recommendations and adjustments to the TEA-designed Early College High School Model goals and interventions related to student and teacher performance.

considered the best fit for the changes that need to oc with the campus and District's belief that all students v campus and district has committed itself to achieving e every student through the transformative use of technology, preparing students to graduate on time or in a tire	excellence by delivering a high quality education to ology, ensuring all students perform at or above grade mely fashion and develop civically engaged students. It asparent, and equitable evaluation systems and support sees all TEA program requirements and aligns with			
In an analysis of all the data, the group identified the following needs and gaps at EMHS: below-target performance for all students in reading/ELA, math, science, and social studies; poor identification of and inadequate interventions for struggling students; less than ideal school climate and an overreliance on alternative educational placements for males of color; low daily attendance rates and problems with chronic absenteeism for some students; insufficient protocols and systems to address data analysis and intervention; a need for more comprehensive and inclusive community and parent engagement programs; and the need for a stronger sense of urgency with regard to monitoring instruction and response to intervention. The ECHS Model will allow the campus to quickly move toward the delivery of comprehensive instructional reform strategies; operational flexibility and sustained support; rigorous, transparent, and equitable evaluation systems; increase learning time and creating community-oriented schools; and provide ongoing mechanisms for family and community engagement.

Schedule #13—Needs Assessment (cont.)

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Part 4: Model Selection-Stakeholder Input. Please describe how student families and community members were engaged in the needs assessment and planning process:

- Describe specific actions the campus/district took to solicit input from these stakeholders in selecting the model.
- Describe how this input was taken into consideration when selecting the model.
- Describe plans to meaningfully engage families and the community in the implementation of the selected model on an ongoing basis.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

During the development of the campus improvement plan, the campus included numerous stakeholders. The Campus Advisory Committee (CAC) includes parents, professional staff, business representatives, and community representatives. The CAC was tasked with reviewing the data and making recommendations as to the needs of the campus. Eastside Memorial High School plans to use the Pre-implementation stage, January-July, as a strategy to expand the opportunities to have meaningfully and detailed discussions with the CAC, families, and the community regarding the implementation of the Early College High School Model.

District staff was also available during vertical team planning meetings for Eastside HS to ensure that all activities are aligned not only horizontally from elementary through high school but also vertically across grade levels, so students entering Eastside HS have a strong and consistent academic foundation when entering high school.

The committees will make additional recommendation during the life of the grant as to the needs of the campus and changes/amendments to the ECHS Model grant are adjusted.

Reviews of the implementation and progress of the ECHS Model over the period of the grant will monitor strategies and data and quarterly meeting with the team of participants and the Campus Advisory Committee will be held. In addition, reports/newsletters will be disseminated to the parents and community as to the review and recommendation by the committees.

The campus will implement ongoing parental involvement activities, such as academic nights, enrichment programs (fine arts, music, etc.), parent teacher meetings, and counselor scheduled meetings. These meeting will expand the participation of parents and families in the educational program designed for the students. The campus will also implement regularly scheduled meetings with local community partners to discuss their role in the development and success of the ECHS program. Through the support of the district team, staff and resources will be provided to continue to enhance parental and community involvement at Eastside Memorial ECHS.

Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Part 3: Commitment and Succession. Describe how the campus and district will ensure that all project participants remain committed to the project's success. Describe your succession management strategies and how this will enable the campus and district to deliver continuous high-quality programming when there are changes in key project personnel. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Austin Independent School District has the capacity and infrastructure to ensure that all grant funds are used, both districtwide and at the campus level, to implement fully and effectively the proposed TEA ECHS model activities. AISD has successfully managed multiple grant-funded projects of similar size and scope in the past. The District's administrative structure includes the Chief Officer of Teaching Learning's Office, which provides leadership, direction, and supervision for the operational and academic management of schools, and educational support services; the Office of Educator Quality, which brings together three departments — Professional Development, Leadership Development, and Strategic Compensation — and supports recruitment, development, retention, and placement of effective and high quality teachers and administrators throughout the District; and the Department of Program Evaluation, which evaluates federal, state, and locally-funded programs, works with program staff to design and carry out program evaluations, and responds to district information needs.

Further ensuring effective implementation of program components, AISD has convened a cross-functional TTIPS team, comprising representatives from the Chief Teaching and Learning Office, Director of the Office of State and Federal Accountability, the Finance Office, the Department of Human Resources, the Department of Research and Evaluation, the Office of Innovation and Development, and Contracts and Procurement Department. The Project Director for the Texas Priority Schools serves as the District Coordinator of School Improvement. The Project Director will work with the cross-functional TTIPS team, which meets at regularly scheduled intervals to review program progress and/or concerns. Dr. Thomas meets with the Chief of Teaching and Learning and AISD's Superintendent quarterly to report on program progress.

All resources acquired with TEA funding are subject to District purchasing and inventorying procedures, as outlined in the subsection entitled "Resource Management." AISD's internal grant management office monitors all grant expenditures. All District grant budgets, including the TTIPS grant budgets, are supervised by a Grant Compliance Officer in the Office of State and Federal Accountability, who has the final responsibility for funds and ensures that the grant is managed according to financial management and programmatic guidelines.

Schedule #15—Project Evaluation

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Part 1: Establishing Performance Measures. Describe the processes used to establish challenging yet attainable performance measures that will result in substantially improved student achievement and the campus' ability to exit lowest-performing status. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point. During the Planning Phase of the grant in the spring of 2016, the cross functional team, teachers, parents, and other stakeholders will review data from the needs assessment: Performance on state assessments; Attendance; TELPAS results; Discipline; Parent/Teacher Surveys; Accountability ratings (including safeguards missed); Teaching, Empowering, Leading and Learning (TELL) results; Review of TAPR data; Student climate survey; Special Education indicator reports (C-IEP); STAAR Data; SAT/ACT Exam Participation and Performance; Advanced Placement/International Baccalaureate Exam; Advanced Course/Dual Enrollment/ College Read Graduates ELA and Math; and Staff/Faculty/Parent/Student survey results. The team will also establish performance measure that will result in sustainable student achievement and set the standards for reviewing and revising goals and outcomes related to the implementation of the Model.

Part 2: Data Collection. Describe the processes for collecting data at a detailed level to inform effectiveness of each intervention. Data at a detailed level would include examples such as: participation rates at the activity-level, dosage rates of an intervention per student, teacher practice observed rates at the targeted strategy-level, or academic outcome data at the activity-level per student. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The Eastside ECHS Leadership Committee will be a data-driven decision making team whose main task will be to provide the overall vision and leadership of the ECHS project/partnership. This committee will examine the rate of dual credit enrollment, student GPA, average college hours earned by ECHS students, and TSI readiness in Reading, Writing, and Mathematics. In addition, the Leadership Committee will provide direction in the topics of curriculum, finance, student data, personnel, recruitment, and communication. Furthermore, this group will address issues of effectiveness of the ECHS design to ensure successful program integration that enhances opportunities for the students to earn college credits along with their high school diploma; program evaluation to inform and improve practices to achieve desired outcomes for student success; parameters affecting infrastructure to include collaboration, communication and shared decision-making between partners and teaching staff; financial and material resources; professional development for staff and faculty; and will provide a collegiate educational philosophy with students, parents, and community. The Department of Research Evaluation (DRE) and State & Federal Accountability (SFA) staff will regularly participate in program planning and support meetings to provide data for program decision-making and progress monitoring. As the program is implemented, DRE & SFA and ECHS Model staff/participants will document and report the stages of implementation to ensure program fidelity and to make ongoing improvement decisions. DRE staff will assist program staff in the use of district information systems to provide "real time" access to student data (e.g., AIMS, campus dashboard reports, etc.) and to encourage ongoing monitoring of student progress. Six-week reports will be provided the campus and support teams assist with decision making and to allow for DRE staff also may share program information with other district decisionmaking groups interested in similar goals and objectives to facilitate the continuing development of a systemwide student support network. All of these efforts will provide program staff with a comprehensive understanding of their own program efforts and enable them to work efficiently and effectively with others in their school and across the district.

Amendment # (for amendments only):

Part 3: Assessing effectiveness of interventions. Describe the processes and staff responsible for assessing the effectiveness of program activities and interventions on an ongoing basis. How are problems with project delivery to be identified and corrected throughout the project?

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point

Monthly meeting with the district support staff and vertical team meeting will monitor the implementation of the program. The Project Director will work with the campus (principal, TTIPS campus Coordinator, and Campus Early College Program Coordinator) and the cross functional team to monitor the effectiveness of the program activities through the data gathered and make recommendations regarding support and changes that would be necessary to ensure student and program success. Eastside HS will monitor student success across content areas so that students will receive the necessary support to meet the challenges of dual credit courses with Austin Community College. Students will be enrolled in a college readiness course in which they will receive specific academic support that prepares them for college. The curriculum in the college readiness course will cover academic collaboration, project based learning, and inquiry. In addition, students will be taught the importance of owning their own learning and setting clear and attainable goals. The position of Early College Program Coordinator will be created to ensure there is clear and flowing communication between the college professors and the Eastside staff. The ECHS Program Coordinator will closely monitor student progress and respond to student's needs by connecting them with appropriate resources such as tutoring, counseling, and other forms of support. The ECHS program will utilize the support systems under Social Emotional Learning (SEL) to gauge support needed by students and provide interventions. Weekly scheduled meetings will be dedicated to academics. During this time, students will work on homework and teachers will have individual conferences with students regarding attendance and grades. SEL lessons will provide a series of activities related to the five biggest issues at Eastside Memorial High School, including, time management and self-advocacy. The lessons will be created by departments and the Professional Learning Communities (PLCs).

Schedule #16—Responses to Statutory Requirements

County-district number or vendor ID:

Amendment # (for amendments only):

Statutory Requirement 1: Describe your rigorous review process used to select highest-quality and best-fit external providers for your project. Include processes to:

- · Identify a reasonably sized pool of prospective external providers
- Assess level of experience in delivering the work
- Determine a history of prior success; consistent strong results in similar projects
- Conduct a risk-assessment related to contracting
- Execute final selection and procurement

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

AISD has adopted procurement policies and procedures consistent with the new Uniform Guidance for grants management and EDGAR. These fiscal compliance guidelines establish funding tiers and expectations for competitive procurement of purchases for all entities receiving Federal grant funding, either as a direct award of via a pass-through entity. The District is currently reviewing the expectations regarding micro-purchases established within the Uniform Guidance to determine whether this new flexibility in procurement meets the internal control specifications of AISD. Under our current policies and procedures, purchases under \$10,000 require at least one (1) written quote that should be acquired by the end user. Price quotes can be obtained via FAX, e-mail, or from catalogs, and must be entered into the AISD enterprise software accounting system as a purchase requisition. Purchase cards, often referred to as P-cards, are American Express credit cards assigned to specific individuals at a campus or within a department having a maximum charge amount of \$2500 per day. The total charges for any one P-Card, regardless of number of purchase made, may not exceed \$2500. Purchases between \$10,000 and \$49,999 require at least three (3) written quotes, obtained by either end user or Contracts and Procurement. These purchases must be purchase requisitions (PR) which will result in a purchase order (PO) being generated. The written guotes should be forwarded via email or fax to a Procurement Specialist to accompany the Purchase Requisition (PR). Quotes and other related documentation is stored in the District's electronic document storage utility. Purchases of \$50,000 and greater require a formal solicitation (ITB, RFP, RFQ), to be created and executed by the Contracts and Procurement Department. This generally takes a minimum of 6 weeks. Any purchase of this size requires a purchase requisition (PR) which will result in a purchase order (PO) being generated. And, any purchase of this size requires Board approval. Austin ISD Contracts and Procurement Department does not keep nor maintain an approved supplier/vendor list. If a potential supplier would like to be considered for their goods or services, then that supplier simply needs to monitor the Austin ISD Contracts and Procurement website and respond to the appropriate Bid Solicitation, RFP, RFQ, RFI, etc. posted. Competitive bidding for goods over \$50,000 is the process of inviting and obtaining bids from competing sources in response to advertised competitive specifications, by which an award is made to the lowest and best bidder meeting the specifications. AISD uses a number of different media formats to identify a reasonably sized pool of prospective provides, thus ensuring competitive bids and the selection of high-quality goods and services. The competitive bid process contemplates giving potential bidders a reasonable opportunity to bid, and requires that all bidders be placed on the same plane of equality. Each bidder must bid on the same advertised specifications, terms, and conditions in all the items and parts of a contract. The purpose of competitive bidding is to stimulate competition, prevent favoritism, and secure the best goods and services at the lowest practicable price, for the benefit of the agency. Competitive bidding cannot occur where contract specifications, terms, or conditions prevent or unduly restrict competition, favor a particular supplier, or increase the cost of goods or services without providing a corresponding benefit to the agency. Generally, for goods over \$50,000, Contracts and Procurement creates an IFB or Invitation for Bid. IFBs are competitive sealed bids generally used for goods, not services. This method is used when the requirements are clearly defined, negotiations are not necessary and price is the major determining factor for selection. The Invitation for Bid includes all the documents used to solicit competitive sealed bids, which are opened publically on a date specified in the IFB by Contracts and Procurement. Formal Solicitations are used for services over \$50,000. Formal solicitations are initiated by the end user, and they are created and managed by Contracts and Procurement. The entire process from initiation of the solicitation to a Board Award can take anywhere from six weeks to several months. The solicitation number should be referenced on the Purchase Requisition. Formal solicitations can be: (A) RFPs—Requests for Proposal; (B) RFQs—Requests for Qualifications; and (C) RFIs—Requests for Information. An evaluation committee reviews/evaluates RFP's and RFQ's based on pre-determined evaluation criteria to determine "best value." The committee is usually made up of end users and a procurement specialist. Solicitations are accepted unconditionally without alteration or correction. The ITB/RFP always states the evaluation criteria to be used. No criteria may be used in evaluation that is not set forth in ITB/RFP. The process of final vendor selection for goods and services includes assessing vendor level of experience; determining a history of prior success; and, assessing any potential risks related to executing a contract with a specific vendor.

County-district number or vendor ID:

Amendment # (for amendments only):

Statutory Requirement 2: External Provider Oversight. Describe your rigorous and ongoing process to provide oversight to external providers to ensure their continued quality and success in meeting project deliverables. Include in the description:

- Proposed schedule to regularly review external provider performance
- · Campus/district personnel responsible for oversight and management of providers
- Process/instruments used to measure and monitor success of providers
- Corrective actions or additional supports utilized to improve provider performance
- Criteria/sequence of actions to be taken to remove/replace a low performing provider

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

AISD's Office of Campus and District Accountability oversees the selection, placement, and monitoring of technical Professional Service Providers (PSPs) specifically required for AISD TTIPS campuses and/or schools in Improvement, above the ongoing assessment of whether an external good or service provider is fulfilling the duties and/or responsibilities of a contract with the District conducted by the Procurement Office. All District contracts are created for a term of one year with the option to renew, if services are evaluated as being successful and a benefit to the District. If the vendor has not provided a successful level of service to the District. AISD will not renew the contract.

The TTIPS Project Director regularly convenes meetings of TTIPS teams, campus staff and any PSPs specifically identified for the TTIPS funded programs. Quarterly meetings with the Professional Service Provider will be scheduled to review services being provided to the campus. The principal, District Pre-kindergarten Director and district personnel responsible for oversight and management of providers will review and discuss any changes needed. PSP contracts are for a term of 12 months. AISD negotiates an hourly rate with PSPs that is in line with TEA standards and determines the number of required contact hours expected of the PSP. These expectations and the expected work products of the PSPs are negotiated and finalized by the PSP, AISD District staff and campus administrators, and included as the contract's statement of work. After the PSP's service contract has been fully executed and all contracting and procurement policies and procedures have been followed, the provider may deliver services.

The process and instruments used to measure and monitor success of providers within AISD were defined within the "Professional Service Provider Selection and Assignment Guidance Workbook for Schools in Improvement, 2014-2015" and the "PSP Network Handbook: Policy and Procedures for Professional Service Providers." Data used as part of PSP monitoring includes, but is not limited to, observation data of vendor performance, student performance, discipline reports, etc.

Should issues related to PSP performance and/or PSP-campus scheduling and efficacy emerge, the Office of District and Campus Accountability will follow those guidelines established in contract and procurement policies and procedures to notify and resolve disputes. Given the nature of the work completed by the PSP, the Office of Teaching and Learning representatives will participate in any service disputes between the campus and the PSP. Should these efforts to resolve what are essentially contract and deliverable disputes fail, AISD will follow the procedure outlined in the "Professional Service Provider Selection and Assignment Guidance Workbook for Schools in Improvement. 2014-2015." Should a revised version of this document identify different steps for resolving disputes and/or replacing a PSP, the District is committed to following the most current protocol.

Amendment # (for amendments only):

Statutory Requirement 4: Coordinated and Integrated Efforts. Describe any ongoing, existing efforts that are similar or related to the planned project. How will you coordinate efforts to maximize effectiveness of grant funds? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

AISD campuses, the Finance Office, and the Office of State & Federal Accountability collaborate as part of the annual AISD budgeting process to ensure coordinated, most effective use of grant funding to maximize student outcomes. The budgeting process starts each fall when the Board adopts a set of proposed budget parameters. These serve as a conceptual framework for targeting resources to achieve District priorities. Following adoption of budget parameters, Trustees review and approve an annual budgeting calendar. These milestones are available for review by internal and external stakeholders at http://www.austinisd.org/budget. All campus-level budgets are developed as part of this process. The Finance Office collaborates with principals each year to develop and review individual campus budgets, and campuses receiving Federal grant funds plan how they will use Federal funding to meet their student achievement goals during the annual budgeting process.

Effectively using Federal grant money requires planning for purchases. The Campus Needs Assessment (CNA), Improvement Plan (CIP), and Explanation of Expenditures (EoE) are planning tools. State & Federal participates in annual school administrator budget planning workshops in late winter each year and in CIP trainings for campus level administrators in early summer. Campus administrators are required to attend a budget workshop in late winter; CIP training is structured as an open house. Campuses receiving Federal formula grants prepare and submit an EoE each spring. The EoE shows how schools are using Federal grant money to meet program and project goals identified in the CIP. It is finalized and attached to the CIP.

A preliminary EoE is provided to State & Federal each spring for review. State & Federal is responsible for reviewing the EoE to confirm expenses are necessary, reasonable, allocable and allowable based on a Federal program's regulations. State & Federal compliance staff regularly meets with schools receiving any state or Federal funding to review budgets and provide guidance on effective use of funding.

AISD's Board of Trustees adopted a competitive grants process. It is different from the annual budgeting and planning process for Federal formula funding: competitive Federal grant applications are submitted throughout the year to meet published deadlines of an awarding agency by the Office of Innovation and Development. If a Federal competitive grant includes multi-year funding, the anticipated budget for future grant years is integrated into the annual budgeting process. This is to ensure effective use of all education resources to maximize student achievement.

The District has in place several ongoing efforts that will support the implementation of the Eastside ECHS initiative. The district will utilize the recruitment and enrollment process that was modeled after the district's current Early College High Schools (Reagan ECHS & LBJ ECHS), signature programs from within the district, as well as best practices of early college high schools from around the state. In addition, the district's SEL department collaborates with campuses, district departments, and community and national organizations to enhance learning opportunities for students. Providing children with comprehensive social and emotional learning (SEL) programs characterized by safe, caring, and well-managed learning environments and instruction in social and emotional skills addresses many learning barriers through enhancing school attachment, reducing risky behaviors and promoting positive development, and thereby positively influencing academic achievement. A strong AVID program is in place in all high schools. The mission of AVID is to ensure that all students, especially those who are in the academic middle of their class, will succeed in a rigorous curriculum; complete a rigorous college preparatory path; enter mainstream activities of the school, increase their enrollment in four-year colleges; and become educated and responsible participants in a democratic society. The AISD Child Study Team provides a multi-tiered, integrated approach to support behavior, academic, attendance and speech/language needs of all AISD students.

Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Statutory Requirement 7: Evaluation Systems for Teachers and Principals, accounting for student growth Applicants proposing a TRANSFORMATION, TEXAS STATE-DESIGN, or EARLY LEARNING model must use a rigorous, transparent, and equitable evaluation system that takes into account student growth as a significant factor. Please review the description of requirements of the evaluation systems under these models in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below.

Applicants not proposing a Transformation, Texas State-Design or Early Learning model shall indicate below with "N/A". Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the data sources for student growth accounted for in the teacher and principal evaluation system. Include how student growth is weighted in evaluation: AISD's Professional Pathways for Teachers (PPfT) is a collaboration between AISD, Education Austin, and the American Federation of Teachers to design a teacher appraisal system meeting the requirements of the new State of Texas teacher evaluation system for 2015-2016. Data sources include student academic achievement assessment scores, observation of instructional practices occurring throughout the year, teacher and principal defined student learning objectives, assessment of professional growth and responsibilities, and finally, an assessment of school-wide value add for staff contributions.

Describe how the evaluation system design includes multiple observation-based assessments and ongoing collections of professional practice: The PPfT process begins with teachers completing an Individualized Learning Plan based on their areas of strength and challenges according to the PPfT Instructional Practice Rubric. Teachers participate in two announced, 30-minute (minimum) observations during the school year, one fall and one spring, each conducted by a different appraiser. Additionally, teachers receive at least three classroom visits throughout the year (one fall, one spring, and on at appraiser's discretion). During each visit, teachers receive written feedback based on the appraisal rubric covering seven strands of observable teaching behaviors. Throughout school year, teachers meet with appraisers to reflect on their teaching practice and track their progress toward professional learning goals. At end of year, teachers participate in a summative conference near the end of the spring semester. The focus of the summative conference is on instructional practice and the impact the teacher has had on students. The summative conference can be waived by the teacher, not the appraiser, as long as the appraiser agrees.

Describe how the evaluation system was developed with teacher and principal involvement:

The PPfT was developed and is led by a collaborative leadership group that reviewed recommendations from teachers, principals, and administrators. The working groups of teachers and Principals refined the PPfT after it was piloted in 20 schools. During the planning/pre-implementation year of the TTIPS ECHS initiative at Eastside Memorial High School, teachers and administrators, along with district support staff will review and clarify the components and expectations regarding the PPfT evaluation system to be used and the impact it will have on the expectations related to student performance.

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Statutory Requirement 8: Educator Reward and Removal

Applicants proposing a TRANSFORMATION, TEXAS STATE-DESIGN, or EARLY LEARNING model must have protocols to identify and reward school leaders, teachers, and other staff who have increased student achievement; and identify/remove those who have not improved their professional practice. Please review the description of requirements for educator reward and removal under these models in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below.

Applicants not proposing a Transformation, Texas State-Design or Early Learning model shall indicate below with "N/A". Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the rewards available for educators who have increased student achievement in implementing

the model:

During the pre-implementation stage, the campus/staff and district leadership will design the strategies/goals related to financial incentives for school leaders, teachers, and other staff who, in implementing the TEA Early College High School Model, have increased student achievement.

Describe protocols/interventions to support teachers who are struggling to improve professional practice:

The PPfT instrument for appraising teachers and identifying areas of improvement has protocols for supporting underperforming staff. During pre-implementation, teachers and administrators will design protocols and interventions for identifying staff who would need additional support and the opportunities to improve instructional practice, thus student academic performance outcomes, prior to replacing/remove unsuccessful staff members.

Describe the criteria established for educator removal:

The scoring criteria guide for the PPfT identifies below expectation (student participation is sporadic, random, seldom) and unsatisfactory (infrequent, nonexistent) related to student participation in the learning process as reasons for removal.

Amendment # (for amendments only):

Statutory Requirement 9: Non-Academic/Social-Emotional Supports for Students

Applicants proposing a TEXAS STATE-DESIGN, TURNAROUND, or WHOLE SCHOOL REFORM model must include comprehensive provisions for appropriate non-academic supports, including social-emotional and community oriented services.

These applicants shall list and describe the non-academic, social-emotional, and community-oriented services that will be provided to students in the space below.

Applicants not proposing a Texas State-Design, Turnaround, or Whole School Reform shall indicate below with "N/A". Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

AISD's vision is to reinvent the urban school experience. AISD believes all students will graduate college, career, and life ready. The district commits itself to achieving excellence by delivering a high quality education to every student through the transformative use of technology, ensuring all students perform at or above grade level, preparing students to graduate on time or in a timely fashion and develop civically engaged students. The district will create vibrant relationships critical for successful students and schools through authentically engaging students, parents/guardians, teachers and the community. AISD will build ownership in the AISD among internal and external stakeholders and develop and maintain partnerships. The district values the whole child every child platform around physical, social and emotional health and safety, as well as equity, diversity and inclusion of all students. AISD has high expectations for all students, employee, parents/guardians and community members. This vision allows for creativity, collaboration and innovation around community schools.

AISD is also a recognized leader in urban education and one of the first districts in the nation to commit to the development of the whole child by incorporating Social and Emotional Learning (SEL). In 2015-16 SEL will be in 129 schools serving all of the district's 86,000 students. Social and Emotional Learning (SEL) is a process for helping children and adults develop fundamental skills for life effectiveness. SEL teaches the skills we all need to handle ourselves, our relationships, and our work effectively and ethically. These skills include recognizing and managing our emotions, developing caring and concern for others, establishing positive relationships, making responsible decisions, and handling challenging situations constructively and ethically.

As part of the district's Strategic Plan for 2015-2020, under strategy 1 (AISD will individualize teaching and learning), AISD will expand the Electronic Child Study Team (eCST) system to include a category fo the individual strengths and interests of each student, which will contain their learning styles and aspirations; develop and expand a campus-level student support system to implement a plan that addresses individual student needs, interests, and allows each student to be known by multiple staff members; establish goals to expand family/school partnerships, which may include home visits, parent meetings, parent volunteers, and strong relationships with students and families to increase trust and shared responsibility; develop a system of authentic assessment to evaluate student understanding and progress beyond the scope of standardized tests; and give priority to professional development that addresses meeting students' individual needs.

Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Statutory Requirement 10: Developing an Early College school-wide strategy

Applicants proposing a **TEXAS STATE-DESIGN** model must deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS). Please review the description of the Texas state-design model in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below. Applicants not proposing a Texas State-Design model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Identify the IHE partner in place for the early college high school development and implementation. Include the title/role of the IHE primary point of contact, and essential agreements reached at this point:

At this time, AISD has two Early College High Schools with agreements with the local two year college (Austin Community College). AISD is in the process of expanding the opportunity for students through a collaboration with a local 4 year college. By the start of TTIPS full-implementation (Fall 2016), EMHS will have key partnerships in place that will ensure its success as an Early College High School. These partnerships are marked by signed Memoranda of Understanding with current signature each year of implementation. Key partnerships for EMHS will include a Memoranda of Understanding between the school district and an institute of higher education (IHE).

Propose an Exemplar Early College High School partner campus in place to serve as the demonstration site/model school. Explain why this school is an good partner for your development:

Describe the sustainable source of funds or fee waiver plan that will enable students to access college courses, TSI assessments, textbooks and college fees; without cost to the student:

The campus access their local funding assign to the campus by the district to allocate costs to the initiative. In addition to the campus allocations, the district has funding set aside for their ECHS campuses to support them in their endeavor to assist the campus with providing college credit earned through the high school years for all students at no cost; including tuition, fees and textbook costs.

Amendment # (for amendments only):

Statutory Requirement 11: Developing an Early College school-wide strategy (continued)

Applicants proposing a **TEXAS STATE-DESIGN** model must deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS). Please review the description of the Texas state-design model in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below. Applicants not proposing a Texas State-Design model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the processes the LEA/campus will take to build the number of college courses available to students to gain during high school to a minimum of six (6) by the start of the 2016-2017 to sixty (60) by the start of 2017-2018 school year:

AISD has four years of experience implementing the Early College High School Model. AISD has two Early College High Schools that have successfully graduated students who have earned their Associates' Degree while earning their High School Diploma. In the first year of full-implementation (Fall 2016), utilizing the schedules implemented at the two successful AISD campuses. EMHS will have the curriculum in place that allows all students to graduate high school with at least six semester credit hours toward a baccalaureate degree. By second year of full-implementation (Fall 2017), the campus will have curriculum in place that enables students to receive a high school diploma and complete the Texas Higher Education Coordinating Board's (THECB) core curriculum (as defined by TAC §4.28); or an associate's degree: or at least 60 credits toward a baccalaureate degree during grades 9-12. By the start of the TTIPS second year of full-implementation (Fall 2017), the campus will provide a full-day program. There will be an IHE liaison with decision-making authority who interacts directly and frequently with the campus staff and administrators. The staff will possess the appropriate level of certification, training and ongoing supports to teach college-bearing courses to high school students. EMHS will provide clear opportunities for students to have regular use (at least six times per school year) of college academic facilities, regardless of early college school site. There will be opportunities for high school faculty and staff to receive regular training and support; in collaboration with the IHE faculty and staff.

Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 227901

Amendment # (for amendments only):

Statutory Requirement 12: Developing an Early College school-wide strategy (continued)

Applicants proposing a **TEXAS STATE-DESIGN** model must deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS). Please review the description of the Texas state-design model in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below. Applicants not proposing a Texas State-Design model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

During the planning implementation year (and during the life of the initiative), the campus will provide social and emotional supports to the students, including: connections to social services, parent outreach and involvement opportunities. The district's Child Study Teams will develop individualized plans for students identified using data collected from course grades, discipline history, attendance records, and classroom observations. Teams that share a cohort of students collectively develop interventions and monitor progress through an integrated data and case management system that tracks the delivery and progress of all interventions and services delivered to students and families. The campus will provide college awareness and access services to students and families, including college application assistance, financial aid counseling, college and career counseling.

Describe the academic, social, college readiness and college access services that will be in place by Fall 2016, to support student success in college-level coursework and continued post-secondary education pursuits:

When the 2016-2017 school year begins, the campus shall provide for the administration of the Texas Success Initiative (TSI) college placement exam to students in order to assess college readiness, design individual instruction plans, and enable students to begin college courses based on their performance. Fees associated with assessment administrations will be waived/covered for all students. In the summer prior to the 2016-2017 start of school students will possess a written course of study plan showing how they will progress as an ECHS graduate. The plan must provide pathway to a baccalaureate degree and follow the courses and fields of study listed in the THECB Lower Division Academic Course Guide Manual. Beginning in the first year of full-implementation, the campus will provide academic supports to the students in the form of: extended learning time sessions for tutoring, advisory and/or college readiness support time built into the program of study, and a college-readiness mentorship program. Adjustments to the master schedule providing students with increased instructional time in Algebra 1 and English 1 & 2 courses. EMHS will provide clear opportunities for students to have regular use (at least six times per school year) of college academic facilities, regardless of early college school site.
